Password Recovery Software

Advanced Password Recovery

Forgot your password? Need to access some password-protected files or systems? Former employees leave without un-protecting their files? Passwords destroyed? Are you worried that your encrypted files may not be secure? These folks can help! Using our software you can easily recover passwords for the files created in most popular applications. *Check with your system administrator before downloading or installing this software; use of this software may violate software policies at your organization.* <http://www.elcomsoft.com>
